Claims Management Medicare Pro

Manage Medicare cash flow projections, claims status, and eligibility issues

Claims Management Medicare Pro helps providers automate their Medicare billing management. With this SaaS solution, you receive advance alerts for receivables at risk, have easy eligibility look-ups, and benefit from an automated process for correcting complex and multi-step claims.

You'll also spend less time and money on audits and Level 1 and 2 appeal processes. Claims Management Medicare Pro provides secure electronic delivery of ADRs, RAC audits, appeals, and medical documentation, and tracks status of all appeals with a single online dashboard.

With Claims Management Medicare Pro, you get improved cash flow management with a better understanding of your receivables at risk.

Advantages for your organization

1 | Gain greater visibility and control over A/R and payment information

2 | Eliminate delayed and lost revenue

3 | Automate time-consuming processes such as checking Medicare eligibility and claim status, and fixing rejected claims

4 | Receive weekly automatic checks to verify Medicare eligibility status and Medicare as a secondary payer

5 | Set up automatic alerts for ADR, RAC audit, and appeal submissions
