Patient Statement Management

Streamlined statement service

Featuring an easy-to-read breakdown of outstanding balances, Patient Statement Management increases your patients' ability to understand your bills, decreasing both patient phone calls and payment delays for your practice. With a simple enrollment and setup process and a choice of statement formats and colors, you can enhance your business image and bottom line in no time.

Patient Statement Management allows you to:

- Accept files from a wide range of billing software and differing formats
- Opt for state-of-the-art address verification/correction capabilities
- Add a customized logo to statements
- Bill patients across different healthcare sectors, including ambulatory or acute-care

Advantages for your organization

1 | A simple, affordable service for staff and patients

2 | Support from an excellent customer service team

3 | A professional design and look to enhance business image

4 | A streamlined billing process for faster payments

5 | Improved processing time and resource efficiency

Key benefits

1
Reduce costs if using an outside vendor with one simple, affordable service.

2
Deliver fast and accurate patient statements by submitting multiple files per day.

3
Save time and internal resources by eliminating in-house processes.

4
Get professional, easy-to-read design options by adding a logo or choose from several formats and papers.
