

Claims Management Starter

Submit claims easily, every time

Managing claims shouldn't be a struggle. Whether you're a clinician handling billing yourself or an office administrator juggling multiple responsibilities, you need a simple, reliable way to get claims out the door — without headaches or surprises.

With this intuitive solution, you'll stay ahead of payer rule changes, catch errors before submission, send claims with confidence, and easily see your payments. Built for simplicity, Inovalon's Claims Management Starter™ features a straightforward dashboard to maximize efficiency and keep you stress-free from day one.

Advantages for Your Organization

- 1** |  | **Effortless workflow**
 The intuitive interface is easy to use and requires minimal training.
- 2** |  | **All-in-one claims management**
 Manage claims for all payers (including Medicare and Medicaid) in one centralized system.
- 3** |  | **Catch and fix errors instantly**
 The automated rules engine catches issues before submission, allowing you to edit and submit easily – and with confidence.
- 4** |  | **Full claims visibility, start to finish**
 Get a comprehensive view of your entire billing process, from claim creation to payment.

Solution Features

Skip the click marathon

A user-friendly interface makes it easy to find what you need — less clicking, less scrolling, more doing.

Work smarter, not harder

Automation highlights what matters most, helping you save time and tackle priorities fast.

Bill with confidence

The software's automated rules engine keeps up with payer changes and flags errors before they become billing problems.

Unblock your cash flow

Send claims fast, avoid bottlenecks, and keep payments rolling in.

Get paid right the first time

Reduce denials and boost first-pass payments with built-in accuracy checks.

Set up in a snap

Web-based and easy to implement — no IT headaches required.
