

# Inovalon and Homecare Homebase<sub>SM</sub> Simplify Medicare Claims Resubmission, One Keystroke at a Time

Resubmitting Medicare claims using traditional DDE takes a lot of time and a lot of keystrokes: 30 plus keystrokes are needed to correct a claim.

Now compound that process with a sluggish computer or internet, a must-take phone call, or some other time-consuming interruption.

## Why do all this?

With **Claims Management Medicare Pro**, these speed bumps no longer matter, because with only eight keystrokes needed, resubmitting those claims takes less time than ever.

### When you can just do this:

1. Log in to Inovalon
2. Launch Claims Management Medicare Pro
3. Select Advanced Search
4. Paste PCN
5. Open Patient Information Page
6. Select wrench icon to correct and open UB-04
7. Make corrections
8. Adjust or Resubmit
